Founders

Mr. Sameer Dutta, B.Tech. Civil from Govt. College of Engineering, Pune in 2007. He worked with Larsen & Toubro from 2007 to 2010 as Senior Engineer. Three years of work experience was followed by completing a Post Graduation in Advance Construction Management (PGP- ACM) from National Institute of Construction Management and Research (NICMAR), Pune in March 2012. As a Post Graduate student he got selected to work as a summer intern for Godrej Interio - Godrej and Boyce, Mumbai. After NICMAR he worked as a Project Coordinator for The SCAPERS Pune in 2012.

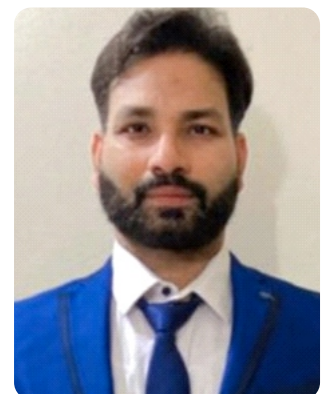

Mr. Nikhil Modani, B.Tech Civil from Govt. College of Engineering, Pune in 2011. Following which he worked as a Junior Engineer for The SCAPERS Pune in 2012. During this period he has executed RCC work of residential buildings. Along with his work he also has been carrying out civil works of transmission lines as a contractor for Govt. projects.

Mr. Pravin Pasare, BE Civil from DY PATIL College, Pune University in year 2011, having wide experience in the field of civil engineering. Worked with different construction companies like Vaichal Construction, Playtor as Engineer, Sr. Engineer and Project Manager. He has executed many industrial, commercial, residential and infra projects. He is very enthusiastic and hardworking. His project execution capabilities are wonderful.

Mr. Pratap Singh, BE Mechanical from KITS Ramtek, Nagpur university in year 2007, having 15 years of experience in the field of manufacturing and civil engineering. Worked with different multinational companies like Whirlpool, Videocon and LG. He has executed various civil engineering projects like industrial sheds, RCC buildings and infra projects. He is self-motivated and energetic.

Profile

NIKAYA Group a partnership venture established in September 2012, is an outcome of the increasing and rapidly growing need for providing infrastructure in India. Brain child of young and enthusiastic professionals the company aims to provide the finest engineering solutions to services spread over a wide spectrum, from structures to interiors. The core strength of NIKAYA, is its strong belief in the concept of providing value for money, honesty, innovation, excellence, eco-friendliness, technology and sustainability. Value and commitment to time schedules are perfectly aligned with the living and working spaces it builds. NIKAYA is a fully-insured and licensed contracting firm, which emphasizes and maintains a high level of concern for job safety, security and performance.

Existing Capacity to Execute 3 Million Sq.ft of RCC Work.

Safety Policy

- **Safety First and Zero Accident Site is Nikaya's Motto. We comply to the Occupational Health & Safety Act, Act 85 of 1993 and other relevant Legislation and Regulations;**
- **Providing agreed levels of quality and service to our clients by appreciating and fully understanding their needs and expectations; Identifying all Safety and Health hazards by compiling Risk assessments;**
- **Establishing procedures to mitigate, reduce or eliminate identified risks to people, equipment, materials, environment and the community; Establishing effective management and maintenance of a Health, Safety, Environmental and Quality program;**
- **Continuously improve our policies and systems and review them when needed, but at least once a year;**
- **Reduce incidents and operational costs;**
- **Inform all employees on their scope of authority;**
- **Provide training, information, continual improvement and instructions concerning Health, Safety, Environmental and Quality for the benefit of all stakeholders;**
- **Provide, as far as reasonably practicable a safe environment for all, and to do everything possible to prevent injuries, occupational diseases, losses or pollution.**

Nikaya Safety Training Programs

Quality Policy

- **Our motto is Quality, Commitment and Performance.**
- **The Scope of our Quality System is Planning, Monitoring, Execution and Management of Residential, Commercial and Institutional layouts.**
- **Nikaya follows a Quality Management System hierarchy that is strictly abided by in all its projects. This system includes departmental guidelines and work instructions as well as essential directions for the quality management system from the top management. To this effect, Quality Records are maintained methodically and carefully.**
- **We ensure that wastage during construction is as low as possible; thus providing optimum value for the client's money. We adopt latest technologies for safer, timely and reliable construction across all our projects giving you the best bet.**
- **We encourage client feedback and reviews so that corrective actions can immediately be put in place. Our Quality standards and procedures are periodically reviewed so as to maintain continuous improvement in all areas of activities based on client inputs to enhance customer satisfaction**
